Mr. Ammon,

Having been in contact with the EPA p.r. office, I have been told that you won't be available to be interviewed. Please confirm for me that this is correct. I have no reason to doubt your press folks but as a matter of practice I try to hear that directly from the person I am trying to interview.

Thanks and regards,

John

Dear Mr. Ammon,

I am working on a story about the National Remedy Review Board's deliberations regarding the West Lake landfill in Bridgeton, Mo. I have been told that you took part in those deliberations and I would very much appreciate talking with you as soon as possible on this subject in connection with the story I'm looking into.

Thanks and regards,

John
